

INFORMATION MEETING ON ESTABLISHMENT OF AN INNOVATIVE PLASTIC SORTING AND REPROCESSING SOLUTION

GET THE OPPORTUNITY TO ASK QUESTIONS ABOUT THE PREQUALIFICATION.

CLEAN and Copenhagen Municipality invite you to participate in an information meeting about the new tender: Establishment of an innovative plastic sorting and reprocessing solution.

We invite everyone with an interest in the tender to participate in the information meeting. The topics of the day will be the descriptive document and the prequalification of consortia.

The descriptive document contains a lot of important information and we will elaborate the document throughout the day.

We have also invited the contracting authorities of the project,

and some of them will speak about their expectations to the tender.

During the day, it will be possible to network with participating economic operators.

The 18th of April is the deadline for submitting requests for prequalification of consortia.

In the tender, the contracting authorities have the possibility to deliver a mixed fraction of plastics and metal for pre-sorting.

The plant is not expected to process the metal and it will not have influence on the conditions for winning the tender.

DATE: 13.03.2017

TIME: 09:00-13:00

ADDRESS:

Njalsgade 13, 2300 CPH

SIGN UP:
