

Fundamental Plasma and Corona Surface Treatment Workshop

April 20 - 2017

Tivoli Congress & Hotel Center, Copenhagen

tantec 
Plasma & Corona Treaters
Leak Detection

General Workshop Information

Last year we held with great success an Advanced Technical Seminar in Plasma and Corona Surface Treatment with Dr. Michael Thomas. Feedback from participants proposed a workshop at a fundamental level, and with more time for hands-on demonstration of Tantec products. To acknowledge this feedback, Tantec has organized a follow-up workshop entitled: "Fundamental Plasma and Corona Surface Treatment"

When and Where?

April 20 2017 | Tivoli Congress & Hotel Center, Copenhagen
From 9.00 – 15.00

Who should attend?

The workshop is geared for users/employees of plasma and corona solutions today or wish to be doing so, and to the decision makers. In addition, the workshop also ideal for OEM and students in plastics technology.

Workshop – hands on

You will have the opportunity to test Tantec products, and treat your own products. Please give info prior to April 1 2017 on pla@tantec.com with a description of what will be treated and whether you require privacy during this test.

Price

Kr. 1.495, -

Guest speaker

We've invited Mia Katharina Podlech, and she will give a speech about adhesion theories. Mia Katharina Podlech is a chemical engineer and polymer specialist employed by Plast Center Denmark. She has worked with polymers since 1996, including adhesives in connection with the adhesion of rubber, rubber / metal, glass fiber composites, thermoplastic composites and thermoplastics.

Registration

Please sign up on our website or reply this email

Language

Seminar will be held in English, but if it's only Danish participants all lectures will be held in Danish.

Contact

For information about the seminar:
